FUN
Cow Art Project
For young artist

Overview

This cow-inspired artwork emphasizes the skills of drawing and gluing. By embracing the perspective and skill of young artists, the project will be a success.

Supplies

Create the background:

- Green water-based markers
- Blue paint stick (or marker)
- Spray bottle of water.
- Tray (cookie sheet)
- Art to Remember paper.

Create the cow:

- 3X4 inch white paper
- White paper oval (approximately 1.5 inches)
- Pink and Black water-based markers
- Water dish
- Brush
- Glue stick

Art to Remember

Create the background

Step 1

Prepare the tray by drawing around the Art to Remember paper to show the size. Remove the paper and draw a horizontal line from edge to edge of the green rectangle.

Step 2

Fill in the lower portion of the rectangle with the green marker. Then fill the top portion with a blue paint stick (a blue marker could be used as well).

## Step 3

Spray the tray with water.

Step 4

Press the background paper onto the tray. Rub hands over the back several times.

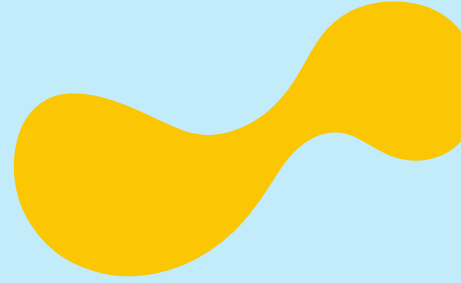

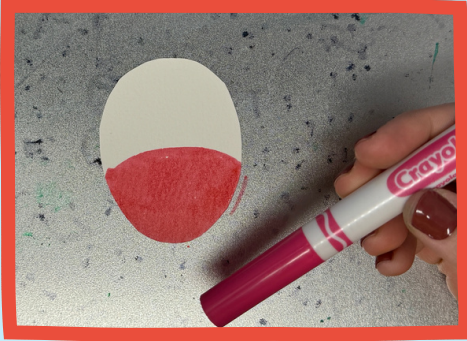

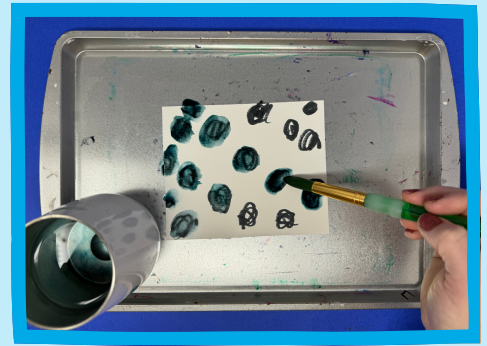

Step 5

Pull the paper off from the tray and allow it to dry completely before moving onto the next step.

Art to Remember

Step 1

Draw small black dots onto the 3X4 inch paper. Brush water onto the black dots. Allow dry time.

Step 2

Color in the lower half of the oval with pink. Then use a black marker to make two dots on the top portion for eyes, and two on the pink portion for nostrils.
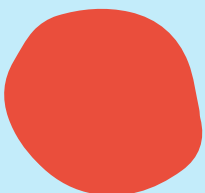

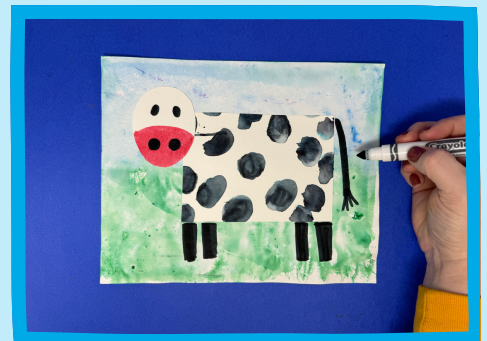

Step 3

Glue the two shapes onto the dry background paper.

Step 4

Use a black marker to draw...
- 4 legs
- a tail
- two ears
- optional, horns
